Robert (Bob) Kranson | Sterling Heights, Michigan, 48310 | devopsbob@outlook.com

Professional Summary

As a **Technical Architect**, I have expertise in multiple technology areas and exposure to multiple industries. My combined social, academic, and professional experience provides you with someone **adaptable to multiple project management methodologies** and transparent delivery of advanced technical solutions. I have track-proven experience in **designing scalable platforms** for hardware and software utilizing multi-hosted, multi-tiered, distributed, or containerized implementations, resulting in a 20% **reduction in operational costs**. I am also well-versed in **release pipeline and delivery** technologies using Azure DevOps or Jenkins and GitHub source management.

Education

- **Bachelor of Science** in Integrated Leadership, Central Michigan University, 2014
